

With the latest event of our Toll Tag Gate System being compromised when we were struck by lightning, we have acquired a new software program. All property owners' toll tags are set to continue to work until February 15th. Prior to February 15, 2019 your Toll Tag will need to be re-registered to continue to work February 16, 2019.

There are **two options** available in order to get this done.

Option1: Download / Print the Toll Tag Authorization Form from the following link.<https://www.whitebluffpoa.com/images/toll-tag-registration-form-2019.pdf>

Complete this form and take a picture of the backside of your toll tag, see examples on page two of the Authorization form. Email to security at security@whitebluffpoa.com, drop the form with the picture at the front gate or fax to 254-247-3304 attention David Sanders. Remember to include the picture.

Option2: Bring your vehicle(s) to the front gate and ask for David or Glenda. We can register your vehicle then.

Some older toll tags may not register. We will replace them at the gate with new ones.

Registration can be completed any time before February 15, 2019. Afterwards your Toll Tag will not work and will need to be registered for you to use the convenience of the toll lane.

Thank You!
