RE: Important Safety Rules

There has been an increase of non-golfers using the cart paths for personal recreational purposes while the New Course is open for play. All property owners should understand that this use is absolutely prohibited.

No personal golf carts, bicycles, ATV's, joggers (including walkers) are allowed on golf cart paths while courses are open for play. This is for the safety and consideration of everyone. The course is open for play beginning at 8 AM and continues until all golfers have completed their rounds. Thanks for your help!
