TO: White Bluff Property Owners  
FROM: Your Board of Directors  
RE: Protecting Our Golf Courses

The attached picture was taken yesterday by a homeowner. It shows 3 of the 7 people who drove the ATV all over the 8th fairway and temporary green of the New Course. All property owners should be highly observant for this kind of destructive behavior and report any and all infractions to Security immediately.

This self-serving behavior will not be tolerated, and violators will be fined and prosecuted to the fullest extent of the law. We are one day from entering the final phase of restoring our golf courses, and all property owners must cooperate in making sure all traffic in, around or on our courses ceases beginning tomorrow.

The Board's ban on all ATVs, motorcycles, bicycles, motor scooters, dirt bikes and personally owned golf carts was implemented as a result of recommendations from the Greens Committee. Please note that the ban on personally-owned golf carts is a TEMPORARY ban and will stay in effect only while our greens and fairways are growing. Your POA has invested \$1.5 million plus maintenance crews expense in this effort, and the temporary inconvenience (during the hottest days of the year) is well worth the end result.
