RE: Independence Day Fireworks

In the full meaning of Independence (and all that implies) and in the spirit of community and looking ahead to the future, your Board has agreed to pay the full cost of the July 4th Fireworks Celebration. Historically, the POA and Double Diamond have shared the cost equally.

As most of you are aware, Double Diamond has refused to contribute what they normally have done in the past, and we were faced with the dilemma of not having one of the most spirited and beautiful evenings of the year. It is an evening when homeowners, guests, families, visiting property owners and the entire Lake Whitney community can come together to celebrate the values of independence from tyranny and having a voice in the future.

Your Board heard from numerous property owners about the impending cancellation of the celebration and after careful consideration agreed unanimously to fund the entire cost of the fireworks show. If you have not seen the flotilla of boats of every size convene slowly toward the WB Marina as sun sets, you are encouraged to witness this awesome symbolism of a wide-spread community coming together to celebrate the freedom we all hold dear.

The fireworks will begin after sunset on July 1st. Double Diamond Hospitality has a number of available events and venues available, and we are sure that DD Food & Beverage Manager Carrie Holden will notify you of those. We also want to thank Fred Molsen in assisting our General Manager, Duane Dauphin, wade through the myriad of last minute details and also Fire Chief Richard Ashley and the WBVFD for their incredible efforts in making this an evening to remember.
