TO: White Bluff Property Owners

FROM: Your Board of Directors

RE: WATER!

Your Board is pleased to inform our property owners that water is now being pumped out of Lake Whitney and flowing into the North Lake. The second pump should be operational tomorrow and will begin filling the South Lake.

We will keep everyone posted as we move forward on getting water to the golf courses and back into our wildlife habitats. Thanks to the incredible, concerted effort of so many to get this crucial first step taken!
