Re: White Bluff VFD

Due to COVID-19 precautions started in March of this year, the WBVFD currently does not receive notification when an ambulance is requested in White Bluff. This was ordered by the Hill County Emergency Manager and Emergency Service District 2 for all of Hill County. The Fire Department was hoping it was a temporary situation but due to rising cases in Hill County it has continued. WBVFD will respond if requested by CareFlite.

WBVFD still responds to non-emergency calls such as assisting to lift someone who has fallen. Please dial 9-1-1 for emergency and non-emergency calls for the fire department.
