TO: White Bluff Property Owners

FROM: Your Board of Directors

RE: New Course Cart Paths

The Board wishes to thank all property owners for their cooperation in not accessing the cart paths, fairways and greens while the New Course was being renovated. We fully realize that this was a frustration to many, but look at what the minor sacrifices yielded!

Effective immediately, property owners will be able to walk or ride their golf carts on the New Course cart paths subject to the following:

When the course is **closed to play**, please do not access the cart paths while maintenance crews are working. A good rule of thumb would be wait until 4:00 PM.

When the course is **open for play**, please do not access the cart paths until play has stopped for the day. This is for your safety. A good rule of thumb would be to wait until you see no golfers.

The restrictions on the Old Course remain in effect.
