FROM: John Bass, VP WBPOA

RE: Some Really Great News From The WB Rate Payers Group

It is truly amazing what can happen in just one week in White Bluff. Only a week ago today nobody had the Water Rate Issue even remotely on their mind. People had forgotten all about it. The WBRP was faced with upwards of \$25,000 worth of legal bills for the month. As I have stated in earlier posts and emails, this is the most expensive period in preparing a defense in a Water Rate Case. We are approaching the "Hearing on the Merits" whereby all the written testimony and exhibits must be researched, produced, and then presented. This procedure is intense and expensive. Since that time, just a week ago, this Water Rate Case issue has become a significant topic of conversation in White Bluff. The WBRP has received over \$12,000 in donations since our last request for matching funds. This enables us to now request the next level of matching funds.

I personally had no doubt that when the Rate Payers/Residents of White Bluff analyzed the facts of the matter that they would respond positively to the need. I, as a WBPOA Board member have stated along with all the other Board members that we wish to make "White Bluff Great Again". In that statement we are referring to the infrastructure and amenities of the community. What we must all discover is that White Bluff is already GREAT because of the people who live here that are our neighbors and friends. Thank you so much for your continued support.
