

As the days continue to get shorter, beginning Monday, October 5, the golf course pro shops will close at 5:00pm. Please be aware that no carts will be available after that time. The driving range will also close at 5:00pm.

We have also begun the process of over seeding the driving range tee and all the tee box complexes at the New Course. You should see new grass growth within 7-10 days. The Old Course will be seeded next Thursday and Friday, October 8th & 9th. We will also over seed both clubhouse areas beginning with the Old Course this week and the New Course next week. With the seeding of these areas, we will be watering the tees periodically through the day very lightly for several days. Please pardon us as we strive to give you the ultimate in tee box playability and appearance.
