RE: December Golf Courses Update

Season Greetings to all that make up our White Bluff Community. We here at the golf Maintenance Department wish you all a safe and joyous Holiday Season.

Thank you all for the support you have shown us this very busy and exciting year. Mother Nature tried to slow things down a few times but all in all things came together very nicely and we were able to get two golf courses open for your enjoyment. We still have so many things to do to make this property even better and appreciate your patience as we work our way through many of our projects still remaining.

One of our top priorities is to keep these greens weed free and healthy by maintaining them at our highest standards. Also, the ponds, creeks and lakes are high on our list of projects to complete by continuing cleaning the cattails, debris and undesirable grasses away from the edges to give us a clean maintained look. This is a slow moving project but we are making headway. The ponds that are leaking are being evaluated and we are working on a plan to repair them to allow us to keep them at a more consistent level throughout the year.

Tee leveling is something that will be ongoing throughout the growing season by re-working some of our worst case tee boxes that have settled or heaved upwards over the years. Fairways will be aerified numerous times throughout the season to help alleviate tension and firmness that we are experiencing currently.

We look to 2020 as a Growing Year for the golf courses to start to mature and become even better with quality turf and healthy greens and tees. Again, we appreciate the support we have received during this exciting grow-in period and look forward to giving all the Property Owners a pair of courses to be even more proud of.

My staff and I wish you all an Unbelievable 2020.

Sincerely yours,
Gregg Fjelland and Staff
