TO: White Bluff Property Owners
RE: Mulligan's Closure

As a follow up to my email of December 19

It is highly likely that a property owner or staff member who attended Dinner with us on December 12th was in fact contagious with the COVID 19 Virus. We have had two staff members who worked that evening have a positive test for COVID. They have not returned to work since that day. Your health and safety is our priority; consider getting tested and seeing your health professional if you are showing any symptoms.
