TO: All Property Owners
FROM: Your Board of Directors
RE: Board Position

The Board met in a Work Session yesterday, and one of agenda items was filling the vacant Director position of former Board member, Marshall Snyder. Interested candidates were thoroughly discussed. The Board voted to have Trena Chagnon fill the unexpired term.

Trena brings a wealth of experience to the Board, having served in managerial leadership positions in the medical and hospital field. These include Strategic Vision and Planning, Reporting and Outcome Metrics, Budgeting and Forecasting, and Account and Operations Management. Most recently before retiring she was Chief Administrative Officer of Lovelace Health Systems in Albuquerque, NM. Trena will begin her duties immediately and formally seated at the next Board Meeting.

The Board wants to give our sincerest appreciation to former Board Member, Marshall Snyder. Marshal was nicknamed Mr. Analytical because of his meticulous approach to the myriad of issues the Board faces. He was particularly involved with Corps of Engineer discussions regarding the Marina, overseeing a well thought out and detailed plan on an entirely new well system for extracting water from the lake, and the development of a study on the gasoline operations at the Marina Store and docks. Marshall will be missed in our day to day functioning but has agreed to serve the Board in the capacity, "Of Counsel."

Please join us in welcoming Trena to your Board of Directors.
