

May 11, 2022

To: All Boat Slip Leaseholders
From: Bill Finney, General Manager

We have tentatively scheduled the Marina interior roofs and walkways for power washing the week of May 23rd. There are a lot of moving pieces to this, so dates may fluctuate due to weather, lake levels, and other extenuating circumstances. We will keep you posted if changes need to be made to those dates.

The removal or covering of all boats will be the responsibility of the boat owner. Due to time constraints, the contractor will start and go straight through. If a boat is not removed and does not have a cover to protect it, we will skip cleaning that slip. Boats that have boat covers and are left in the slip, will be power washed and then the staff will hose off the boat cover. So everyone is informed and understands "THERE WILL BE OVERSPRAY ON ALL BOATS THAT ARE LEFT IN THEIR SLIPS".

Thank you in advance for your cooperation.

Bill Finney
General Manager
